What to Expect from a Police Security Assessment

Many local police departments offer homeowners a free security assessment. Check the city website or contact the local police department to see if this service is offered.

A Police Department Security Assessment Checks:

Strong security strike plates in the door frame

This makes it difficult for someone to kick in the door.

Window locks all around the house in locked position

Many people don't take the time to lock all windows, making burglary easy.

A quality monitored alarm system

The strongest alarm systems notify the local PD when a break-in or attempt occurs.

Alarm keypad placement not visible to intruders looking through a window

A visible green light indicates to an intruder that it's safe to open doors and windows.

Camera surveillance system that alerts intruders they are being watched

Strong systems record break-in attempts and alert you so that you can call the PD.
